## ABOUT SWIGGY DATASET

**The Swiggy Restaurant Dataset is a comprehensive collection of data related to restaurants available on the swiggy food delivery platform. This dataset provides valuable information about various aspects of restaurants, enabling users to explore, analyze, and gain insights into the restaurant landscape on swiggy.**

**Swiggy is India's largest online food item ordering & delivery chain, it also tops the chart of India Unicorn startup lists. It's a Bangalore based startup started in 2014, and as of now, it's expanded to more than 100 Indian cities. Swiggy propelled quick pick and drop food delivery applications to make the life of people simpler. It gives a single window to request from an extensive variety of restaurants along with an entire food entering and conveyance arrangement that connects neighbourhood eateries with foodies.**
